

MBR-18

Time & attendance control access *JOB COSTING*

MBR-18 **BIO**

MBR-18 **RFID**

- Web Services and HTTP/HTTPS client. Easy way to control terminal On-Line.
- HTTP Web server permits easy terminal configuration.
- Client SQL and MySQL send transit logs directly to network DB.
- Client SMTP able to send mails.
- FTP client and FTP server.
- Ethernet 10-100 Mbps.
- WiFi (optional).
- RS485 interface.
- Badge supported: RFID 125 Khz and Mifare 14443-A.
- Biometric technology.
- Programmable push button.

The **MBR-18** support **Off-Line and On-Line**. Thanks to a wide range of communication modes meet all needs. Terminal interface is based on exchange of files and commands. The operating system provides great performance. It has weather resistant case, reliability and low cost.

TechnoDrive is a leading Italian company of manufacturing time attendance and control access terminals. TechnoDrive provides great flexibility on the customization of their products according to customer's requirement.

Design and Manufacture of Electronic Equipments

TECHNICAL SPECIFICATIONS

MBR-18

RGB multi-color semaphore

Monotone buzzer

Build-in RFID 125 KHz or 13.56 Mhz reader Mifare/NFC

Build-in biometric optical reader

DDR3 512 Mbyte memory

1 Ghz Cortex A8 CPU

High precision temperature-compensated real time clock

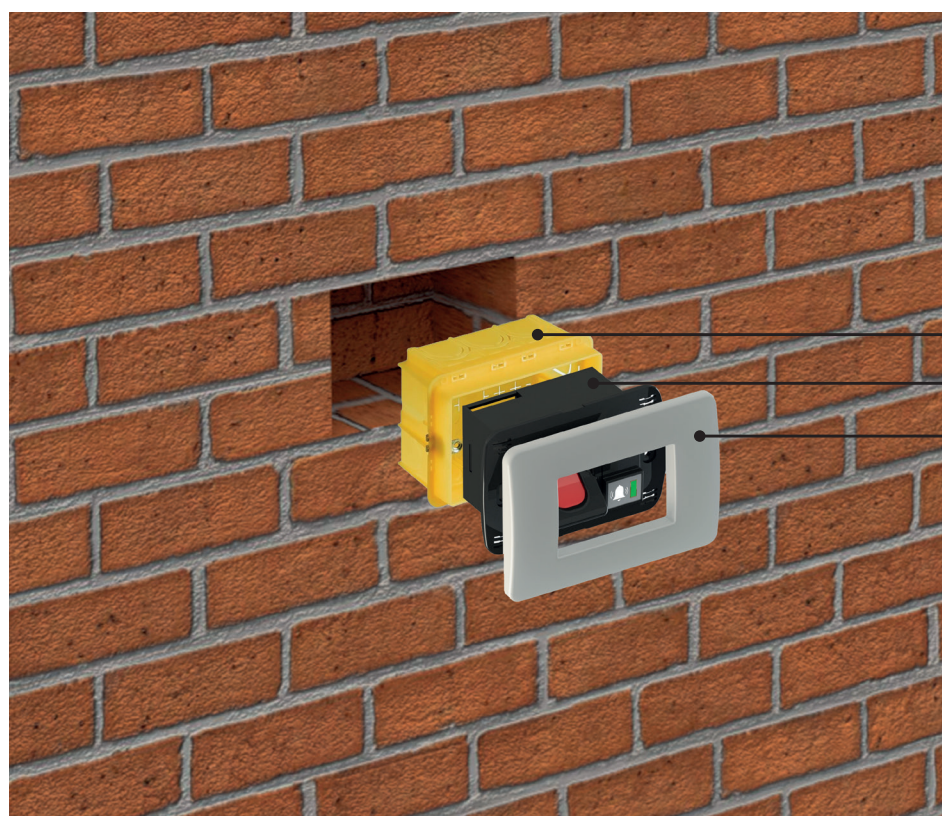

10-100 Auto-MDIX Ethernet

Serial communication ports RS485

1 internal relays

1 digital inputs

PoE Power supply or 9-36 Vdc with ext. adapter

503 BOX

MBR-18

COVER PLATE (optional)
